

OVERVIEW

1. Plastic: The Backbone of Modern Industry.

Plastic is no longer just a material; it is a primary global commodity, ranking alongside oil and real estate in trade volume, and essential to 90% of manufacturing sectors.

2. Polymers: The Engine of Industrial Growth

The polymer trade represents the "Front-End" of the industrial chain. As global demand for sustainable and high-tech plastic rises, the raw material sector remains the most stable and profitable segment.

3.Strategic Trade & Future Outlook

Investing in polymer trading bridges the gap between global production and local industrial needs, ensuring a high-growth trajectory in a market valued at over \$600 Billion globally.

4. Resilience & Recession-Proof Demand

The polymer industry has proven to be "Recession-Proof," as the global reliance on plastic raw materials continues to rise regardless of economic shifts, ensuring long-term investment security.

SUMMARY : POLYMER TRADING: THE STRATEGIC SUPPLY CHAIN

Our core business focuses on bridging the gap between global petrochemical giants and local manufacturers, ensuring a seamless flow of high-quality polymers that sustain industrial production.

ABOUT US

A Brief Story About The Company

ONYX GATE is a premier trading house specializing in the global distribution of high-quality polymer resins. With deep-rooted expertise in the petrochemical trade, we serve as a vital link between world-class producers and local manufacturers.

Our core focus is providing reliable supply chain solutions and premium raw materials—including PE, PP, and specialty polymers to ensure our partners' production excellence and industrial growth.

VISION

MISSION

ONYX GATE –To be the premier and most trusted partner in the polymer trade across Saudi Arabia, driving industrial excellence through quality, reliability, and sustainable growth.

01

Providing premium quality polymers and resins that meet international standards and fulfill our partners' specific needs.

02

Ensuring consistent and efficient supply chain operations to guarantee uninterrupted production for our clients.

03

Building long-term relationships based on trust and transparency with major producers and manufacturers in the Saudi market.

04

Delivering innovative polymer solutions that contribute to the growth of the industrial sector in line with Saudi Vision 2030.

OUR TEAM

Our team consists of experts in operations management and international trade, specialized in navigating market fluctuations and managing complex logistics to deliver cost-effective raw material solutions.

TEAM SKILLS

- 1. Strategic Sourcing & Cost Leadership
- 2. Supply Speed & Global Procurement
- 3. Logistic Intelligence & Delivery
- 4. Financial Integrity & Collections
